Have you taken Elementary Hebrew at UC Davis (or another institution) or did you study the language outside school?

If you are proficient through elementary-level Hebrew, consider enrolling in Hebrew 021: Intermediate Modern Hebrew I in Fall Quarter.

Continuing your Hebrew studies will enrich you in many ways – informing you about Middle Eastern history and cultures, literature, religion and more. In addition, it will help prepare you for a number of careers in the private, public and non-profit sectors – and skills in foreign languages, especially those less commonly studied, help set apart a person in the academic and professional realms.
